

Please consider the evenings of the hard working people that just want to unwind from the days hectic schedule to not be bothered by numerous unwanted phone calls. Many of which are recordings. I do not want to be bothered after hours. I get enough unsolicited mail to deal with let alone my noisy phone ringing all times of the evening. please allow Indiana to preserve our peace by prohibiting solisitation phone calls. thank you for your passing of a law for the peace of the families of Indiana.
